PROFILE Enthusiastic and skilled Full Stack developer with 2+ years of experience building responsive web applications. Proven collaboration skills, adept at combining technical expertise with a user-centric approach for optimal application performance. Experience with DevOps practices, PHP and JavaScript development, and a passion for continuous learning.

EMPLOYMENT HISTORY

Jun 2020 — Jan 2021

Angular Developer, Applifting

- Collaborated with a cross-functional team to design and develop a bidding application for Alpiq Energy SE, showcasing strong teamwork and project management skills.
- Built responsive single-page applications using Angular, leveraging flexbox for adaptable layouts and utilizing SASS and ESLint for code quality assurance.
- Contributed to the development of innovative web solutions, prioritizing user experience for optimal performance.

May 2019 — Jun 2020

DevOps Intern, Raiffeisenbank

- Implemented and optimized CI/CD pipelines using Jenkins and Bitbucket, streamlining development processes.
- Designed and developed a robust web reporting application for project managers using PHP (Nette) and Angular (Node.js), leveraging technologies like Angular Material, Bootstrap, and Sass.
- Gained hands-on experience in building tools and processes to automate and improve software development workflows.

Nov 2018 — May 2019

Junior PHP Developer, Residit

- Designed and implemented client solutions using Nette(PHP), Netbeans, and phpMyAdmin, demonstrating proficiency in creating secure and efficient web applications.
- Developed models within an MVC architecture, implementing business logic to deliver successful project outcomes.
- Utilized PHP development skills and essential tools like Netbeans and phpMyAdmin to streamline coding and database management.

EDUCATION

Computing Science (BSc), Trinity Western University

Advanced Digital Design and Development, North Island College

UX Design Certificate, Tamwood College

SKILLS

Typescript	Next.js
.NET Core	Nest.js
Angular	GraphQL
C#	PHP

EXTRA-CURRICULAR ACTIVITIES

Dec 2021 — Jan 2023

Peer Tutor, North Island College

- Provided personalized tutoring sessions to enhance peers' understanding of coursework and assignments.
- Contributed to the academic community by fostering a supportive learning environment.
